main.c Save Run

```c
#include <stdio.h>
#include <stdlib.h>
#include <time.h>
#include <string.h>
#include <ctype.h>

#define MAX_NAME_LENGTH 50
#define MAX_QUESTION_LENGTH 100
#define MAX_ANSWER_LENGTH 50

void introduction() {
    printf("Welcome to the cyber class 2024!\n");
    printf("The purpose of this game is to have a laugh please don't take it personally
        .\n\n");
}

void new_game() {
    char name[MAX_NAME_LENGTH];
    int score = 0;
    char response;

    printf("Enter your name: ");
    fgets(name, sizeof(name), stdin);
    name[strcspn(name, "\n")] = '\0'; // Remove trailing newline character

    printf("\nHello %s, let's start the game!\n\n", name);

    srand(time(NULL));

    for (int i = 0; i < 5; i++) {
        char question[MAX_QUESTION_LENGTH];
        char answer[3][MAX_ANSWER_LENGTH];
        int correct_answer;
        int user_answer;

        switch (i) {
```

Output Clear

```
